

WHAT'S THE CHEAPEST, MOST-ABUNDANT SOURCE OF FUEL IN AMERICA?

IT'S NOT OIL

AND IT'S NOT CORN

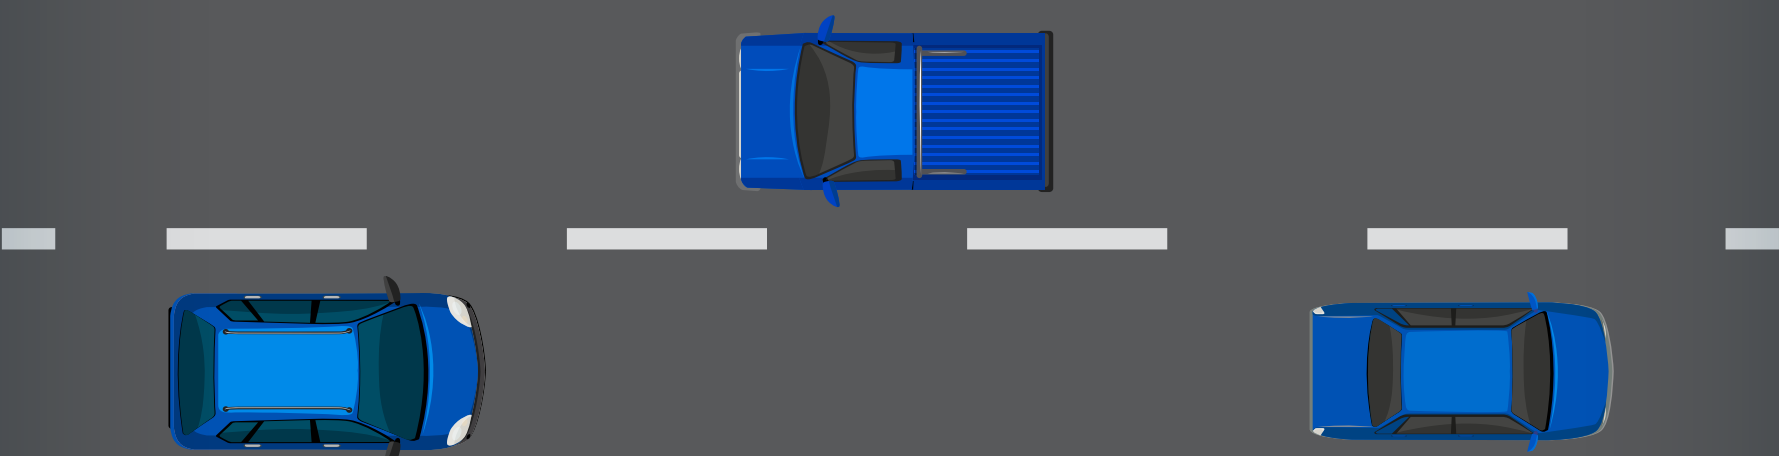

IT'S NATURAL GAS

NATURAL GAS IS WIDELY USED IN POWER
PLANTS AS A CLEANER ALTERNATIVE TO COAL...

AND A LOT IS BURNED AT OIL FIELDS
AND REFINERIES AS A WASTE PRODUCT.

BUT WHAT IF THIS AFFORDABLE,
ABUNDANT, AMERICAN RESOURCE
COULD FUEL YOUR CAR,
TRUCK, OR SUV?

DID YOU KNOW THAT **NATURAL GAS**
CAN BE TURNED INTO

ALCOHOL FUELS LIKE
ETHANOL AND METHANOL?

IT'S TRUE.

AND THIS PATHWAY IS ONE
OF THE MOST COMPELLING WAYS
WE CAN BREAK OUR OIL ADDICTION.

FUEL FREEDOM
CHEAPER. CLEANER. AMERICAN-MADE.
